NOTES: Final Prices may vary according to the bride’s needs. For example, a bride may only want bracelets and earrings (no necklace) and prices will change accordingly. The final price is confirmed with the bride after consultation about design and materials.

What is the “Material Deposit”?: The ‘material deposit’ is a percentage (30%) of the final price that must be paid in order for designing to begin. This deposit is non-refundable in order to cover material costs. The remaining 70% is due upon the jewellery’s completion.
